MEMORANDUM FOR: Director of Communications

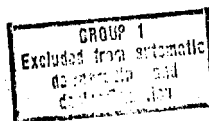

SUBJECT : Recommended Course of Action for Rooftop
Antenna Reviewing Committee

REFERENCE : Memo dated 27 November 1967 (OC-DO-M67-029)
to D/Communications, D/Logistics, and D/Security,
from C/DCA/OC, Subject as above

1. The Office of Security agrees that a Working Group on antenna problems for the Headquarters Building should be formed with membership from Office of Logistics, Office of Security, and Office of Communications with the Head of such Group the Communications Member. It is felt such Working Group should have the authority, where there is agreement among members of the Group, to approve installation, modification or removal of antenna systems. Where there is an appeal to decisions of the Group or where the Group cannot reach agreement such matters would be referred to the Director of Communications for resolution by coordination with the Director of Security and Director of Logistics.

2. In regard to paragraph one of the referenced memorandum, this Office feels that each Agency component presently having antenna facilities on the roof of Headquarters Building should submit justification for retention, updating, and additional requirements to the above Working Group for consideration and, if approved, forwarding to Logistics Services Division, Office of Logistics, for action.
